

SmartLF SC 42

INNOVATION IN WIDE FORMAT SCANNERS AND SOFTWARE

Wide Format Scanner for
SuperSpeed Technical
Imaging and Graphics

SUITABLE FOR:
TECHNICAL & CAD DRAWING OFFICES,
PROFESSIONAL SCANNING & COPY SERVICES
FOR ARCHITECTS, ENGINEERS, CONSTRUCTION,
GEOGRAPHIC & MAPPING PROJECTS

The Colortrac SmartLF SC 42 is a robust and reliable high volume production scanner whose efficient operation, image quality, scanning speed and practical software gets more documents scanned to the highest quality every hour.

Key Features

HIGH VOLUME PRODUCTION SCANNER

- ❑ **NEW SingleSensor¹** digital imaging technology providing 1200dpi optical with 9800dpi maximum scanning resolution
- ❑ **NEW** Reliable paper feed from advanced Single Driven Hold-up Roller giving even feed pressure across scan width
- ❑ **NEW SuperSpeed USB3** interface providing 5Gb/sec data transfer which is a factor of TEN times improvement over USB2
- ❑ **NEW Wide scan deck** providing more room for staging your document when scanning
- ❑ **NEW SmartWorks EZ Touch** - SCAN / COPY / E-Mail software included
- ❑ 42" image width - suits A0, E and ARCH E size scans
- ❑ High speed scanning in monochrome, gray scale and color - giving sharp, fine image detail
- ❑ Bi-directional **LED²** lighting for optimum object illumination and instant-on scanning
- ❑ Scans media up to 0.08" / 2mm thick - suits ALL technical documents
- ❑ On-site upgrade from monochrome to color or express color - for a clear growth path as you expand
- ❑ Magnetic document edge-guide for easier, more positive loading

The 42" image width is ideally suited to the demanding and difficult volume scanning needs of AEC, CAD, Mapping, GIS and Service Bureau professionals.

Using our NEW full width **SingleSensor¹** with true 1200dpi optical resolution provides outstanding image capture with more than enough resolving power for any large format scanning job and with virtually Stitch-free user maintenance.

Using the **SuperSpeed USB3** interface gives the SmartLF SC 42 very high speed data transfer of up to 5Gb/sec making everyday batch scanning tasks now even more efficient and more productive.

SmartWorks EZ Touch software.

Because you need large format scanning solutions that work for you:

The SmartLF SC42 is available in three affordable and uniquely upgradable models. Start with a monochrome solution and then upgrade to color later on.

We also include the straightforward **SmartWorks EZ Touch** SCAN/COPY/E-mail software which runs with either touch-screen* or keyboard / mouse modes - switch between them any time you like!

The optional **SmartWorks EZ Touch Plus** adds further image manipulation to your finger tips and

combines wide format scanning and copying in one very easy to use program with full compatibility for many wide format printers through standard Windows drivers.

The new **SmartWorks Pro** SCAN & COPY software is an optional professional application providing more advanced control over all aspects of the scanning and copying processes. The **SmartWorks Pro** demonstration version may be freely downloaded from www.colortrac.com

* Requires proprietary touch screen driver (for Windows 7 or Vista) and a touch sensitive monitor.
