Océ ColorWave 650 printing system

Large format black & white and colour on one productive system

Print, copy and scan without sacrificing productivity or quality with the Océ ColorWave 650 printing system. Now you can print superb quality - in black & white and colour - on a single device using proven, award-winning Océ CrystalPoint technology.

The Next Wave in speed, efficiency and flexibility

The Océ ColorWave 650 printing system builds on the proven success of the Océ ColorWave 600 printer. It has been enhanced with a number of improvements that offer the Next Wave in speed, efficiency and flexibility.

The Next Wave in...

- **Speed:** prints up to 50% faster than its predecessor
- **Efficiency:** the use of copy and scan templates and the integrated online folder saves time on document tasks
- **Flexibility:** manage, print and share documents at your desktop via your web browser

Océ ColorWave 650 printing system

All-round productivity

The Océ ColorWave 650 can print in black & white and colour at up to 225 A1 prints per hour for all-around productivity. It can hold up to six media rolls and prints come out dry, cut to size and ready to use. With the optional online folder, different folded packages can be prepared and printed right from your desktop.

Effortless operation

The system simplifies routine tasks to save time and to ensure first-time-right output. Define up to five copy and scan templates with your most common settings. Then just press the green button and the system does the rest. Whether copying, scanning or printing, the system can be set up to help you get the correct results at the touch of a button.

Océ CrystalPoint quality

The Océ patented Océ CrystalPoint technology ensures robust, waterfast prints with sharp lines, high readability of fine details and smooth, even area fills. The high-quality prints, which are consistent over time and on different machines, have a unique silk-shine look and feel, independent of the type of media you use.

Sustainability secure

The Océ ColorWave 650 ensures a healthy working environment every day. The unique Océ TonerPearls® make for a totally clean system: there's no fine dust, no odour and minimal waste disposal.

1 Océ TonerPearl cartridges

You can quickly and easily handle the Océ TonerPearls with no risk of getting residue on your hands or in the air.

2 Top delivery tray

The top delivery tray can hold up to 100 prints.

3 Colour user panel

The user panel allows you to quickly scroll through the menus, to monitor the media and toner stock and to perform maintenance tasks correctly.

4 Imaging devices

The eight imaging devices, two per colour, move across the media at high speed, jetting the toner gel onto the media. As a result, a crisp print quality is achieved.

5 Media

The 42-inch wide printer holds up to six media rolls, each containing up to 200 metres of media. Supports 2-inch or 3-inch cores.

Océ TC4 scanner

Superior scan technology

- Optimal quality and reliability for monochrome and colour scanning
- A single CCD camera ensures consistent image quality, even with transparencies or folded drawings.

Ease of Use

- Copy and scan templates for commonly performed actions

Consistent colour scanning

- Océ Color Image Logic® provides right-first-time results
- Automatic background compensation offers clean digital images even with demanding originals

Ideal productivity

- Fast processing on the controller frees the scanner quickly
- True Concurrency — Fully utilise the scanner for copying or scanning while printing is taking place

Océ ColorWave 650 + Océ 2400 fanfold

Océ ColorWave 650 + Océ 4311 fullfold

Convenient online folding

With the fully integrated Océ 2400 fanfold, you can immediately pick up your fanfolded colour or monochrome drawings, even long plots. Fanfolding saves time and avoids creased drawings. Instead of manoeuvring a set of large format documents you have well-organised piles to work with. The narrow fold unit allows you to fanfold 100 mm panels, for efficient map production.

Productive online folding

If you combine your Océ ColorWave 650 with the Océ 4311 fullfold, you can automatically fold wide format prints, ready to use. The crossfolded documents can easily be retrieved from the belt unit. Next to the standard folding programs, you can create your own programs, which makes you flexible for future demands. As an option, a reinforcement strip can be applied automatically or an extended stacker can be installed, allowing you to stack 150 additional folded A0 prints.
